A portion of the proceeds from the issue of shares for cash will be utilised for the cash component of the consideration paid in the Proposed Share Exchange and related expenses.

2. RATIONALE

The Proposed Share Exchange is in line with Gold Reef's objective of consolidating its gaming platform by increasing its exposure to its existing operations. Gold Reef is of the view that the Proposed Share Exchange will create long-term financial benefits for its shareholders.

Gold Reef's intention is to increase the BEE direct and economic interest in Gold Reef to a minimum of 25.10%, thus satisfying an important component of the Code of Good Practice issued by the Department of Trade and Industry on broad-based BEE and complying with the Gaming Board's recommendations on BEE. The Proposed Share Exchange will result in a BEE direct and economic interest in Gold Reef of 21.30%. The Top - up Transaction is required to attain the intended 25.10% target.

3. VOTING POOL AGREEMENT

In order to, *inter alia*, ensure that the aforesaid 25.10% target is maintained, a Voting Pool Agreement will be concluded between the BEE shareholders and Gold Reef (the "Voting Pool Agreement") whereby the BEE shareholders cannot dispose of their shareholding for three years and thereafter only to previously disadvantaged individuals and/or with the approval of the relevant Gambling Boards .

4. Directors

Gold Reef is committed to Black Economic Empowerment throughout the entire Group and not only at shareholder level. Therefore, following the successful implementation of the Proposed Share Exchange and the Top-up Transaction, the following appointments to the board will be made:

5. RELATED PARTY TRANSACTION

In terms of section 10 of the JSE Listings Requirements the various transactions forming part of the Proposed Share Exchange are regarded as related party transactions as the BEE shareholders are material shareholders in Gold Reef's subsidiaries. The ALI, ALSH and ALICM transactions have been aggregated for categorisation purposes, due to common shareholders and this is, as a result, a category 2 transaction. The JSE has ruled that Gold Reef must obtain one overall fair and reasonable opinion for the Proposed Share Exchange and three individual fair and reasonable opinions for the acquisitions that make up the category 2 transaction. The financial effects of the Proposed Share Exchange are shown collectively, and not on an individual transaction basis.

The Top-up Transaction is a specific issue of shares for cash to related parties as certain Top-up BEE participants are currently material shareholders in Gold Reef's subsidiaries which are the subject of the proposed share exchange. As a result the issue is subject to a fair and reasonable opinion and shareholder approval being obtained.

6. **OPINIONS AND RECOMMENDATIONS**

The board of directors of Gold Reef, in accordance with the JSE Listings Requirements, has appointed Grant Thornton and Merchant Sponsors (Proprietary) Limited ("GT") as an independent expert to the Gold Reef board to furnish opinions in relation to the terms and conditions of the Proposed Share Exchange, the terms and conditions of the ALI, ALSH and ALICM acquisitions and the specific issue of shares for cash to the Top-up BEE participants.

GT will consider the terms and conditions of the Proposed Share Exchange, the ALI acquisition, the ALSH acquisition, the ALICM acquisition and the specific issue of shares for cash to the Top-up BEE participants and will opine on whether these transactions are fair and reasonable to shareholders. Their opinions will be contained in a circular to Gold Reef shareholders.

The Proposed Share Exchange is subject to, *inter alia*, the following conditions precedent:

- 7.1 the Voting Pool Agreement becoming unconditional (Gold Reef being entitled to waive such requirement);

- 7.3 Gold Reef obtaining shareholder approval for the Proposed Share Exchange.

The Top-up Transaction is subject to, *inter alia*, the following conditions precedent:

The agreements giving effect to the Proposed Share Exchange and the Top-up Transaction, contain warranties which are considered normal for transactions of this kind.

8. **PRO FORMA FINANCIAL EFFECTS**

The unaudited *pro forma* financial effects of the Proposed Share Exchange and Top-up Transaction on Gold Reef's earnings per share ("EPS"), headline earnings per share ("HEPS"), normalised earnings per share, ("NEPS"), net asset value per share ("NAV") and tangible net asset value per share ("TNAV") are set out below. This unaudited *pro forma* financial information has been prepared for illustrative purposes only and because of its nature may not give a fair reflection of Gold Reef's financial position and results of operations, nor the effect and impact of the Proposed Share Exchange and Top-up Transaction going forward, and is the responsibility of Gold Reef's directors.

Notes:

1. Based on the published unaudited interim results of Gold Reef for the six months ended 30 June 2006.
2. Based on the assumption that the transaction was effected on 1 January 2006 for income statement purposes and 30 June 2006 for balance sheet purposes.
3. The dilutive effect on EPS and HEPS of the Proposed Share Exchange is due to the ALSH acquisition. Silverstar Casino is under construction and will not contribute to earnings until its expected opening date in December 2007. However, the Gold Reef shares will be issued to the ALSH BEE shareholders on implementation of the Proposed Share Exchange. The Proposed Share Exchange is expected to be earnings enhancing in the medium term, once the Silverstar Casino commences trading. The dilutive effect of the transactions is also exaggerated by the non-recurring write-off of the acquisition value of the Goldfields contract, Akani Egoli contract and the IFRS 2 expense arising from the Top-up Transaction. This has been adjusted for in NEPS.
4. The above financial effects were calculated using an estimated R20.70 as the value of the shares issued to the BEE shareholders on implementation date for the Proposed Share Exchange and Top-up Transaction for fair value accounting and IFRS 2 purposes.
5. NEPS excludes the non-recurring write-off of the acquisition value of the Goldfields contract, Akani Egoli contract and the IFRS 2 expense arising from the Top-up Transaction.
