Statement of responsibility by the board of directors

for the year ended 31 March 2026

The company's directors are required by the Companies Act of South Africa, 71 of 2008, as amended, to maintain adequate accounting records and to prepare financial statements for each financial year that fairly present the state of affairs of the company at the end of the financial year and of the results of operations and cash flows for the year. In preparing the accompanying financial statements, the JSE Limited Listings Requirements, together with IFRS Accounting Standards have been followed, suitable accounting policies have been used, applied consistently, and reasonable and prudent judgements and estimates have been made. Any changes to accounting policies are approved by the board of directors and the effects thereof are fully explained in the financial statements. The financial statements incorporate full and responsible disclosure.

The board of directors recognises and acknowledges its responsibility for the company's systems of internal financial control. The company's policy on business conduct, which covers ethical behaviour, compliance with legislation and sound accounting practice, underpins its internal financial control process. The control systems include written accounting and control policies and procedures, clearly defined lines of accountability and delegation of authority, comprehensive financial reporting and analysis against approved budgets. The responsibility for operating these systems is delegated by the directors who confirm that they have reviewed the effectiveness thereof. The directors consider that the systems are appropriately designed to provide reasonable, but not absolute, assurance that assets are safeguarded against material loss or unauthorised use and that transactions are properly authorised and recorded. The directors are also responsible for the controls over, and the security of, the company's website and, where applicable, for establishing and controlling the process for electronically distributing annual reports and other financial information to the company's shareholders and to the Companies and Intellectual Property Commission.

The directors considered the going concern status of the company taking into account the current financial position and their best estimate of the cash flow forecasts. The cash flow and liquidity projections for the company have been prepared for a period exceeding 12 months from the reporting date and included performing sensitivity analyses. On the basis of this review, and in light of the current financial position and existing borrowing facilities, the directors consider the going concern method to be appropriate for the presentation of the financial statements. Refer to note 3(a) *Critical accounting estimates and judgements – Going concern* in the notes to the financial statements.

The company's independent auditor, Deloitte & Touche, has audited the financial statements and the auditor's unmodified report appears on pages 07 and 08. Deloitte & Touche was given unrestricted access to all financial records and related data, including minutes of all meetings of shareholders, the board of directors and committees of the board. The directors believe that all representations made to the independent auditor during the audit are valid and appropriate.

Directors' approval of the financial statements

for the year ended 31 March 2026

The preparation of the financial statements has been supervised by the Financial Director, E Loubser CA(SA). These financial statements were approved by the board of directors on 28 July 2026 and are signed on its behalf by:

CG du Toit
Chief Executive Officer

E Loubser
Financial Director

Chief Executive Officer and Financial Director's responsibility statement

for the year ended 31 March 2026

Each of the directors, whose names are stated below, hereby confirm that:

- ▶ the annual financial statements, set out on pages 01 to 39, fairly present in all material respects the financial position, financial performance and cash flows of Tsogo Sun Limited in terms of IFRS Accounting Standards;
- ▶ to the best of our knowledge and belief, no facts have been omitted or untrue statements made that would make the annual financial statements false or misleading;
- ▶ internal financial controls have been put in place to ensure that material information relating to Tsogo Sun Limited has been provided to effectively prepare the financial statements of Tsogo Sun Limited;
- ▶ the internal financial controls are adequate and effective and can be relied upon in compiling the annual financial statements, and we have fulfilled our role and function as executive directors with primary responsibility for implementation and execution of controls;
- ▶ where we are not satisfied, we have disclosed to the audit committee and the auditors any deficiencies in design and operational effectiveness of the internal financial controls, and have taken steps to remedy the deficiencies; and
- ▶ we are not aware of any fraud involving directors.

CG du Toit
Chief Executive Officer
28 July 2026

E Loubser
Financial Director

Declaration by the Company Secretary

In terms of section 88(2)(e) of the Companies Act of South Africa, 71 of 2008, as amended ("the Act"), we confirm that for the year ended 31 March 2026, Tsogo Sun Limited has lodged with the Companies and Intellectual Property Commission all such returns and notices as are required of a public company in terms of the Act and that all such returns and notices are true, correct and up to date.

Tsogo Sun Casino Management Company Proprietary Limited
Company Secretary
28 July 2026

Report of the audit and risk committee

for the year ended 31 March 2026

COMMITTEE MANDATE AND TERMS OF REFERENCE

In terms of the Companies Act of South Africa, 71 of 2008, as amended ("the Act"), the committee reports that it has adopted formal terms of reference, and that it has discharged all of its responsibilities for the year in compliance with the terms of reference.

STATUTORY DUTIES

The committee is satisfied that in respect of the financial year it has performed all the functions required by law to be performed by an audit and risk committee, including as set out in section 94 of the Act and in terms of the committee's terms of reference and as set out in the corporate governance report. In this connection, and with specific regard to the preparation of the annual financial statements, the committee has:

- ▶ Evaluated the independence and effectiveness of the external auditor, Deloitte & Touche, and is satisfied that the external auditor was independent of the company having given due consideration to the parameters enumerated under section 92 of the Act. The committee evaluated and is satisfied that the audit firm and the individual auditor was suitable for appointment as contemplated in terms of paragraph 5.7(h)(iii) of the JSE Limited Listings Requirements. Ms T Morake was the individual registered auditor and member of the aforementioned firm who undertook the audit. Deloitte & Touche has been the auditor of the company for three years;
- ▶ Ensured and satisfied itself that the appointments of the external auditor, the designated auditor and IFRS Accounting Standards adviser are in compliance with the Act, the Auditing Profession Act, 2005 and the JSE Limited Listings Requirements;
- ▶ Reviewed the scope of the external audit, the effectiveness of the audit process, risk areas of operations covered in the scope, planned levels of materiality, resourcing and the terms of the external auditor's engagement letter;
- ▶ Monitored and assessed the limited non-audit services provided by the external auditor and the service fees charged for the provision thereof, ensuring that the independence of the external auditor was not compromised;
- ▶ Reviewed the information provided by the audit firm and individual auditor in their assessment of the suitability of the reappointment of the auditor;
- ▶ Reviewed and assessed the company's internal control policies and procedures in place for the identification, assessment and reporting of risks, as well as the company's process of risk management;
- ▶ Evaluated that the company has established appropriate financial reporting procedures and that these are operating;
- ▶ Reviewed and approved the company accounting policies;
- ▶ Considered all significant transactions and accounting matters that occurred during the year and satisfied itself that the accounting treatments were in terms of IFRS Accounting Standards;
- ▶ Considered the impact of auditing, regulatory and accounting developments during the year, particularly the implications of new, revised or amended accounting pronouncements as issued by the International Accounting Standards Board ("IASB"), none of which were effective for the company from 1 April 2025;
- ▶ Evaluated and is satisfied with the implementation of the combined assurance framework and plan;
- ▶ Considered and evaluated the company's assessment of the Chief Executive Officer and Financial Director's responsibility statement as required by the JSE Limited Listings Requirements;
- ▶ Reviewed compliance with debt covenants;
- ▶ Reviewed the scope of the internal audit being performed, and evaluated the effectiveness, as well as the fees and terms of engagement, of the outsourced internal audit function;
- ▶ Considered the reappointment of the outsourced internal audit service provider and is satisfied with their independence and ability to effectively complete the internal audit plan; and
- ▶ Reviewed the written assessment of internal audit on the design, implementation and effectiveness of the internal financial controls, in addition to the findings noted by the external auditor during the course of the annual audit in support of the annual audit opinion. Based on these results, the committee is of the opinion that the internal financial controls provide reasonable assurance that financial records may be relied upon for the preparation of reliable financial statements.

COMPETENCE OF THE FINANCIAL DIRECTOR

The committee has also considered and satisfied itself of the appropriateness of the expertise and experience of the Financial Director, Mr E Loubser, and the finance function.

RECOMMENDATION OF THE ANNUAL FINANCIAL STATEMENTS

The committee has evaluated the financial statements of Tsogo Sun Limited for the year ended 31 March 2026 and based on the information provided to the committee, the committee recommends the adoption of the financial statements by the board of directors.

MJA Golding

Chairperson: Audit and Risk Committee

28 July 2026

Directors' report

for the year ended 31 March 2026

1 NATURE OF BUSINESS

The company is a South African incorporated public company listed on the Johannesburg Stock Exchange ("JSE"). It is an investment holding company, engaged principally in the gaming, entertainment and hospitality industry operating in South Africa, with registration number 1989/002108/06. There have been no material changes in the nature of the company's business from the prior year.

2 STATE OF AFFAIRS AND PROFIT FOR THE YEAR

The financial results of the company for the year are set out in the financial statements and accompanying notes thereto. The company profit after tax for the year under review from operations amounted to R2 762 million (2025: R506 million). The directors have noted their consideration to the going concern status of the company, taking into account the current financial position and their best estimate of the cash flow forecasts, in the directors' approval to the accompanying financial statements for the year ended 31 March 2026. Refer also to note 3(a) *Critical accounting estimates and judgements – Going concern* in the financial statements. Consolidated financial statements have been prepared and are publicly available on the company's website, www.tsogosun.com, and at the registered office of the company.

3 SOLVENCY AND LIQUIDITY TEST

The payments of dividends depend on the directors' ongoing assessment of the company's earnings, financial position, cash needs, future earnings prospects and other future factors.

Before declaring dividends, the directors apply the solvency and liquidity test and assess whether the company would satisfy the solvency and liquidity test immediately after payment of said dividend.

4 DIVIDENDS

Subsequent to the year end, on 25 May 2026, the board of directors declared a final gross cash dividend of 30 cents per share from distributable reserves in respect of the year ended 31 March 2026. The dividend was declared in South African currency and was paid to shareholders on 27 July 2026.

An interim gross cash dividend of 15 cents per share was paid on 22 December 2025 in respect of the 31 March 2026 year end.

5 DIRECTORATE

The directorate during the year under review was as follows:

Executive

- ▶ CG du Toit (Chief Executive Officer and served as Financial Director with effect from 2 June 2025 until 31 August 2025)
- ▶ E Loubser (appointed as Financial Director with effect from 1 September 2025)
- ▶ S van Vuuren (appointed with effect from 1 September 2025)
- ▶ G Lunga (resigned as executive director and Chief Financial Officer of the company with effect from 2 June 2025)

Non-executive

- ▶ JA Copelyn⁽¹⁾ (Chairperson)
- ▶ Y Shaik⁽¹⁾

Independent non-executive

- ▶ BA Mabuza⁽¹⁾⁽²⁾⁽³⁾ (Lead independent)
- ▶ MJA Golding⁽²⁾
- ▶ VE Mphande⁽¹⁾⁽³⁾
- ▶ RD Watson⁽¹⁾⁽²⁾⁽³⁾
- ▶ F Mall (retired by rotation as a director with effect from the close of the company's AGM on 29 August 2025)

⁽¹⁾ HR and remuneration committee

⁽²⁾ Audit and risk committee

⁽³⁾ Social and ethics committee

Directors' report continued

for the year ended 31 March 2026

6 DIRECTORS' EMOLUMENTS

Refer to note 27 to the financial statements for details of the directors' emoluments.

7 COMPANY SECRETARY

The Company Secretary is Tsogo Sun Casino Management Company Proprietary Limited, the business and postal addresses of the Company Secretary are as follows:

Business address:

Palazzo Towers East
Montecasino Boulevard, Fourways, 2055

Postal address:

Private Bag X190
Bryanston, 2021

The board of directors has considered the competence, qualifications and experience of the employees of the Company Secretary, Tsogo Sun Casino Management Company Proprietary Limited, who perform the company secretarial services on its behalf, and are satisfied that such employees are suitably competent, qualified, experienced and independent, and have adequately and effectively performed the roles and duties of a company secretary. None of the employees of the Company Secretary who perform secretarial duties are directors of the company.

8 CONTROLLING SHAREHOLDER AND SHAREHOLDER ANALYSIS

The company's ultimate controlling shareholder is Hosken Consolidated Investments Limited (a company listed on the JSE) which, at the reporting date, indirectly owned 53% (2025: 50%) of the company's issued share capital. Refer to note 27 *Related parties* and the shareholder analysis in the financial statements for further details.

9 SHARE CAPITAL

During the year under review, the company embarked on a share buy-back programme. All shares were cancelled. Refer to note 18 *Share capital and premium* in the financial statements for further details.

The directors of the company have, as a general authority until the forthcoming annual general meeting ("AGM"), been authorised to allot and issue the authorised but unissued ordinary shares as they in their discretion deem fit (subject to the company's Memorandum of Incorporation ("Moi"), the Companies Act and the JSE Limited Listings Requirements). This authority does not extend to the issue of shares for cash (whether by way of a general issue of shares for cash or a specific issue for cash) where the JSE Limited Listings Requirements or the Companies Act require an additional approval to be granted. The board of directors has also been given a general authority to acquire ordinary shares issued by the company subject to the Moi, Companies Act and JSE Limited Listings Requirements which is valid until the company's next AGM, or 15 months from the date of the passing of the special resolution authorising same, whichever period is the shorter. The board of directors has been authorised to determine the preferential rights attaching to the future issue of preference shares (subject to the approval of the JSE).

10 SUBSIDIARIES

Refer to note 14 in the financial statements for details of subsidiaries.

11 EVENTS AFTER THE REPORTING DATE

Refer to note 30 in the financial statements for events occurring after the reporting date. The directors are not aware of any other matter or circumstance arising since the end of the financial year and up to the date of these financial statements, not otherwise dealt with within the financial statements, that would affect the operations or results of the company significantly.

12 APPOINTMENT OF DEBT OFFICER

In terms of the JSE Debt and Specialist Securities Listings Requirements, Egbert Loubser, the Financial Director, was appointed as the company's debt officer with effect from 1 November 2020. The board of directors has considered, and is satisfied with, the competence, qualifications and experience of the debt officer.

Independent auditor's report

To the shareholders of Tsogo Sun Limited

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Opinion

We have audited the financial statements of Tsogo Sun Limited (the company) set out on pages 09 to 38, which comprise the statement of financial position as at 31 March 2026; and the statement of profit or loss; the statement of changes in equity; and the statement of cash flows for the year then ended; and notes to the financial statements, including material accounting policy information.

In our opinion, the financial statements present fairly, in all material respects, the financial position of Tsogo Sun Limited as at 31 March 2026, and its financial performance and cash flows for the year then ended, in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board and the requirements of the Companies Act of South Africa.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the company in accordance with the Independent Regulatory Board for Auditors' Code of Professional Conduct for Registered Auditors (IRBA Code), as applicable to audits of financial statements of public interest entities, and other independence requirements applicable to performing audits of financial statements in South Africa. We have fulfilled our other ethical responsibilities in accordance with the IRBA Code and in accordance with other ethical requirements applicable to performing audits in South Africa. The IRBA Code is consistent with the corresponding sections of the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)*. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

In terms of the IRBA Rule on Enhanced Auditor Reporting for the Audit of Financial Statements of Public Interest Entities, published in Government Gazette No. 49309 dated 15 September 2023 (EAR Rule), we report:

Final Materiality

We define materiality as the magnitude of misstatement in the financial statements that makes it probable that the economic decisions of a reasonably knowledgeable person would be changed or influenced. We use materiality both in planning the nature and extent of our audit work and in evaluating the results of our work.

Financial statements – Company Materiality

Overall materiality	R29 million (2025: R25.5 million)
How we determined it	This represents 5% of normalised profit before tax.
Rationale for benchmark applied	A key judgement in determining materiality is the appropriate benchmark to select, based on our perception of the needs of shareholders. We considered which benchmarks and key performance indicators have the greatest bearing on shareholder decisions. The increase in materiality is attributable to the increase in the benchmark applied in determining materiality.

We determined that profit before tax remained the key benchmark and is generally accepted for listed entities.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide an opinion on these matters.

No key audit matters were noted for the audit of the separate financial statements of Tsogo Sun Limited.

Other Information

The directors are responsible for the other information. The other information comprises the information included in the document titled "Tsogo Sun Limited Integrated Report 2026" and in the document titled "Tsogo Sun Limited Annual Financial Statements for the year ended 31 March 2026", which includes the Directors' Report, the Audit Committee's Report and the Company Secretary's Certificate, as required by the Companies Act of South Africa. The other information does not include the consolidated or the financial statements and our auditor's reports thereon.

Our opinion on the financial statements does not cover the other information and we do not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Independent auditor's report continued

To the shareholders of Tsogo Sun Limited

Responsibilities of the Directors for the Financial Statements

The directors are responsible for the preparation and fair presentation of the financial statements, in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board and the requirements of the Companies Act of South Africa, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- ▶ Conclude on the appropriateness of the directors' use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report, unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Audit Tenure

In terms of the IRBA Rule published in Government Gazette No. 39475 dated 4 December 2015, we report that Deloitte & Touche has been the auditor of Tsogo Sun Limited for 3 years.

Notes to the financial statements

1 SUMMARY OF MATERIAL ACCOUNTING POLICIES

The material accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied to all the periods presented unless otherwise stated.

a. Basis of preparation

The financial statements have been prepared in accordance with IFRS Accounting Standards as issued by the IASB and Interpretations as issued by the IFRS Interpretations Committee, and comply with the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee, Financial Reporting Pronouncements as issued by the Financial Reporting Standards Council, the JSE Limited Listings Requirements and the requirements of the South African Companies Act of South Africa, 71 of 2008, as amended ("the Act"). They have been prepared under the historical cost convention, as modified by the revaluation to fair value of certain financial instruments as described in the accounting policies below.

b. Changes in material accounting policies

There were no new, revised or amended accounting pronouncements as issued by the IASB which were effective for the company from 1 April 2025.

c. Investment in subsidiaries

Subsidiaries

Subsidiaries are all entities (including structured entities) over which the company has control. The company controls an entity when the company is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are included in the financial statements from the date control commences until the date control ceases. Control exists where the company has the ability to direct or dominate decision-making in an entity, regardless of whether this power is actually exercised.

The company records its investment in subsidiaries at cost less any impairment charges. At each reporting date the company reviews the carrying amounts of its investment in subsidiaries to determine whether there is any indication that those investments have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Recoverable amount is the higher of fair value less costs to sell and value in use. If the recoverable amount of the investment is estimated to be less than its carrying amount, the carrying amount of the investment is reduced to its recoverable amount. Where there is an impairment recovery, the original impairment is reversed to the maximum of the amount impaired. Impairment reversals and impairment losses are recognised immediately in profit or loss.

d. Investments and other financial assets

(i) Classification

The company classifies its financial assets as those to be measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

(ii) Recognition and derecognition

Financial assets are recognised when the company becomes a party to the contractual provisions of the respective instrument. Financial assets are derecognised when the right to receive cash flows from the asset has expired or has been transferred and the company has transferred substantially all risks and rewards of ownership.

(iii) Measurement

At initial recognition, the company measures its financial assets at their fair values.

Debt instruments are subsequently measured at amortised cost and comprise financial assets held to collect contractual cash flows where those cash flows represent solely payments of principal and interest. Interest income from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognised immediately in profit or loss.

(iv) Impairment

The company assesses, on a forward-looking basis, the expected credit losses ("ECL") associated with its debt instruments carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

The company's financial assets measured at amortised cost comprise loan receivables and cash and cash equivalents to which the general model is applied.

Notes to the financial statements continued

1 SUMMARY OF MATERIAL ACCOUNTING POLICIES continued

e. Fair value measurement

Financial instruments carried at fair value, by valuation method, are defined as follows:

- ▶ Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities;
- ▶ Level 2 – inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); or
- ▶ Level 3 – inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

The fair value of financial instruments that are not traded in an active market (for example, financial guarantees) is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2. If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

f. Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and, where applicable, bank overdrafts.

g. Assets classified as held for sale

Assets classified as held for sale are measured at the lower of carrying amount and fair value less costs to sell. Such disposals are classified as held for sale if their carrying amount will be recovered through a sale transaction rather than through continued use. These disposal assets are available for immediate disposal in their present condition, subject only to actions to complete the sale or distribution which must have been initiated and should be expected to be completed within one year from the date of classification as held for sale. No depreciation or amortisation is recognised on assets classified as held for sale.

h. Impairment and impairment reversals of non-financial assets

At each reporting date the company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the company estimates the recoverable amount of the cash-generating unit ("CGU") to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (CGUs). If the recoverable amount of a CGU is estimated to be less than its carrying amount, the carrying amount of the CGU is reduced to its recoverable amount. Where there is an impairment reversal, the original impairment is reversed to the maximum amount impaired. An impairment loss is recognised immediately in profit or loss.

i. Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options, or for the acquisition of a business, are shown in equity as a deduction, net of tax, from the proceeds and are included in the share premium account.

Where any group company purchases the company's equity share capital (treasury shares), the consideration paid is deducted from equity attributable to the company's equity holders until the shares are cancelled, re-issued or disposed of. Where such shares are subsequently sold or re-issued, any consideration received is included in equity attributable to the company's equity holders. Company shares part of the executive facility (which has historically been discontinued) are accounted for as treasury shares.

Notes to the financial statements continued

1 SUMMARY OF MATERIAL ACCOUNTING POLICIES continued

j. Borrowings and finance costs

Borrowings are recognised initially at fair value and are subsequently stated at amortised cost and include accrued interest.

Borrowings are removed from the statement of financial position when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished and the consideration paid is recognised in profit or loss.

Borrowings are classified as current liabilities unless the company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

Finance costs include all borrowing costs incurred on borrowing instruments. Borrowing costs are recognised in profit or loss in the period in which they are incurred.

k. Financial guarantees

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument.

Recognition and measurement

The initial recognition of intergroup guarantees is accounted for as a capital contribution (additional investment in subsidiary) due to the parent/subsidiary relationship between the guarantor and the debt holder. The subsequent measurement gain or loss is recognised in the statement of profit or loss.

Financial guarantee contracts issued by the company are initially measured at fair value and are subsequently measured at the higher of:

- ▶ The ECL in accordance with IFRS 9; or
- ▶ The amount initially recognised less, where appropriate, the cumulative amount of income/amortisation recognised in accordance with IFRS 15 *Revenue from Contracts with Customers*.

The ECLs are a probability-weighted estimate of credit losses (the cash shortfalls) over the expected life of the guarantee. Accordingly, the cash shortfalls are the expected payments to reimburse the holder for a credit loss that it incurs.

The fair value of the financial guarantee liability on initial recognition is determined using valuation techniques that requires management to make certain assumptions about the model inputs; which include the probability of default ("PD"), exposure at default ("EAD") and loss given default rates ("LGD").

The cost (ECL) of the guarantees is valued on a probability-weighted discounted cash flow basis using PD and LGD.

No upfront fee or premium was paid in exchange for the financial guarantee at initiation. As such, a discounted cash flow technique was applied to determine the fair value on initial recognition of the financial guarantee which included estimated probabilities of default/survival to ensure that the inherent credit risk, and value derived from movement in the reference entity's credit spreads, is adequately reflected in the instrument's overall valuation.

As no premium is received in return for the financial guarantees in this instance, the value of the financial guarantee is therefore based solely on the estimation of PDs of the reference entity. The present values of the expected credit-adjusted cash flows were determined by discounting each projected cash flow to the valuation date.

Using reasonable and supportable evidence, the likelihood of which guarantor will be called upon in a default scenario by the debt holder was incorporated into the valuation of the financial guarantee liability for the company.

Refer to note 20 *Financial guarantees* for methodology and assumptions used in measuring the ECL for financial guarantees.

Notes to the financial statements continued

1 SUMMARY OF MATERIAL ACCOUNTING POLICIES continued

l. Trade and other payables

Trade and other payables represent liabilities for goods and services provided to the company prior to the end of the reporting period which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest rate method.

m. Revenue

Revenue comprises revenue from contracts with customers and dividend revenue.

(i) Dividend revenue

Dividend revenue from investment in subsidiaries is recognised in profit or loss when the company's right to receive payments is established.

(ii) Revenue from contracts with customers

The company is an investment holding company in its subsidiary companies, providing royalty services to certain of its subsidiaries. Revenue from contracts with customers is recognised in accordance with the substance of the relevant agreements. Royalties are recognised over time as the customer receives and consumes the economic benefits. No element of financing is deemed present as the sales are made by negotiated credit terms of 30 days. The company has concluded that it is generally the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customer. The company does not have significant accounting judgements, estimates and assumptions relating to revenue from contracts with customers as the revenues mentioned above are all based on stand-alone selling prices and pre-determined settlement dates. There are no other promises in the contracts that are separable performance obligations to which a portion of the transaction price needs to be allocated.

n. Income tax

The tax expense for the period comprises current tax. Tax is recognised in the statement of profit or loss except to the extent that it relates to items recognised directly in other comprehensive income, in which case it is recognised in other comprehensive income.

The current tax expense is based on the results for the period as adjusted for items that are not taxable or not deductible. The company's liability for current taxation is calculated using tax rates and laws that have been enacted or substantively enacted by the reporting date.

o. Dividend distributions

Dividend distributions to the company's shareholders are recognised as a liability in the company's financial statements in the period in which the dividends are approved by the company's board of directors.

Notes to the financial statements continued

2 NEW STANDARDS, INTERPRETATIONS AND AMENDMENTS TO EXISTING STANDARDS ISSUED THAT ARE NOT YET EFFECTIVE

Certain new standards and amendments to existing standards have been issued by the IASB that are effective in future accounting periods of the company. There are no issued new standards and amendments to existing standards that affect the company for the annual period beginning on 1 April 2026. The company is to conclude on the impact of the new standards and amendments that will be effective from the annual periods beginning on or after 1 April 2027, none of which are expected to have a material financial effect on the results of operations or financial position of the company. The most material of these, which the company has decided not to early adopt, is shown below.

IFRS 18 *Presentation and Disclosure in Financial Statements*

This standard supersedes IAS 1 *Presentation of Financial Statements* and sets out requirements for the presentation and disclosure of information in general purpose financial statements ("financial statements") to help ensure they provide relevant information that faithfully represents an entity's assets, liabilities, equity, income and expenses. The main changes in the new standard compared with the previous requirements in IAS 1 comprise:

- ▶ The introduction of categories and defined subtotals in the statement of profit or loss that aim at additional relevant information and provide a structure for the statement of profit or loss that is more comparable between entities;
- ▶ The introduction of requirements to improve aggregation and disaggregation that aim at additional relevant information and ensure that material information is not obscured; and
- ▶ The introduction of disclosures on Management-defined Performance Measures ("MPMs") in the notes to the financial statements that aim at transparency and discipline in the use of such measures and disclosures in a single location.

The standard must be applied retrospectively in accordance with the normal requirements in IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors*, from the company's annual period beginning 1 April 2027.

3 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of financial statements requires the use of accounting estimates, which by definition, will seldom equal the actual results. Judgement also needs to be exercised in applying the company's accounting policies. The company makes estimates and assumptions concerning the future. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

a. Going concern

The covenants are measured as a group (the company, together with its subsidiaries). The net debt to adjusted EBITDA ratio, as measured for covenant purposes at 31 March 2026, amounted to a 1.92 times multiple. Adjusted EBITDA is defined by the company as earnings before interest, tax, depreciation and amortisation ("EBITDA") and excludes the effects of items which are regarded as unusual and are infrequent and are considered to distort the numbers if they were not adjusted, and headline adjustments in terms of Circular 1/2023 *Headline Earnings*. The group's debt covenant ratio requirement is less than a 3.0 times multiple. At the date of this report, the directors are not aware of any circumstances whereby the company should not be able to achieve the covenant requirements for March 2027. Lower debt levels of the company and its subsidiaries were achieved notwithstanding cash outflows of R466 million for ordinary dividend payments and net interest payments of R550 million for the year (excluding IFRS 16 *Lease interest*). The medium-term debt leverage target remains lower than a 1.8 times multiple.

The company's statement of financial position is linked to the ability of its subsidiaries to discharge their liabilities as they become due and payable in the normal course of business, and the directors evaluate the company and its subsidiaries going concern jointly.

The cash flow and liquidity projections for the company and its subsidiaries were prepared for a period exceeding 12 months from the reporting date and included performing sensitivity analyses. Based on the forecast performed, the directors are of the opinion that the company and its subsidiaries have sufficient access to liquidity and facilities to fund operations for the ensuing 12 months. Although the company's current liabilities exceed current assets at 31 March 2026, taking the abovementioned into account, the company's forecasts reflect that it will generate sufficient cash flows during the period to meet all trading liability obligations. Furthermore, the board of directors of Tsogo Sun Hotels, Gaming and Entertainment Proprietary Limited has no intention to call for a settlement of the loan due by the company to its subsidiary, Tsogo Sun Hotels, Gaming and Entertainment Proprietary Limited as per note 22 *Loans from subsidiaries*.

After taking the above factors into account, the directors consider the going concern method to be appropriate for the presentation of these financial statements.

Notes to the financial statements continued

3 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS continued

b. Estimated impairment of investment in subsidiaries

At each reporting date, the company reviews the carrying amounts of its investment in subsidiaries to determine whether there is any indication that these investments have suffered an impairment loss. These calculations require the use of estimates of the recoverable amount of the assets as noted in note 14 of the financial statements. Significant judgement is required when evaluating the inputs into the value in use calculation and therefore this is seen as critical to the estimation uncertainty.

c. Expected credit loss on intergroup loans

The company annually estimates ECLs on loans to group companies in terms of IFRS 9 taking into account the credit risk and expected future cash flows of the counterparties. The company measures the loss allowance at an amount equal to 12-month ECLs or lifetime expected credit losses if the credit risk of the loan has increased significantly since initial recognition.

Refer to note 15 for further details in respect of exposure to ECLs on loans to subsidiary companies.

d. Financial guarantees

The valuation of the guarantees includes assumptions on credit default rates, credit risks, credit ratings and ECLs. The ECL model includes estimates relating to the probability of a default by the borrower and the resultant loss to the guarantor for each underlying borrower.

The capital on the loans and notes is repayable at the end of the loan or note term. Management has assessed whether the day-one fair value of the guarantees should be amortised and concluded that amortisation on a straight-line basis is appropriate.

Refer to note 20 for methodology and assumptions used in measuring the ECL for financial guarantees.

Accumulated impairment	(808 637)	(3 083 345)
Carrying value	22 255 435	20 145 811

⁽¹⁾ Refer note 17 Assets classified as held for sale

In addition to the abovementioned subsidiaries, the company has interests in indirectly held subsidiaries. All subsidiaries shown above are incorporated, and have their place of business in South Africa. A register detailing such information in respect of all subsidiaries of the company is available for inspection at the registered office of the company, which may be inspected by members or their duly authorised agents.

Impairment test for investment in subsidiaries

Consumer discretionary spend remained under pressure due to the continued slow growth of the South African economy, the high cost of living and the high unemployment rate. These factors, together with casino styled online betting games continuing to grow to significant levels, are taken into account in the impairment testing of investment in subsidiaries.

Significant estimate – key assumptions used for value in use calculations

The recoverable amount of the investment in subsidiaries is determined based on the higher of the fair value less costs of disposal and value in use. All recoverable amounts have been based on value in use. These calculations use management-approved cash flow projections based on five-year forecasts. The expected capital cost spend in the subsidiaries is based on the historical experience of maintaining each property, taking into account current spend. The approved capex programme is monitored closely by management, thereby ensuring only necessary spend. Cash flows beyond the five-year period are extrapolated using the estimated long-term growth rate. The key assumptions used for value in use calculations were reviewed by management at the year end and estimated as follows:

Trading assumptions

Management forecast income, operating expenses and adjusted EBITDA margins based on past and current performance and its expectations of disposable income in South Africa as mentioned above. Focus remains on maintaining previously implemented cost reductions and operational efficiencies. The aforementioned, together with the key assumptions mentioned below, are reflected in the company's forecast cash flows assuming normal growths in the future.

Adjusted EBITDA during the budget period is estimated based on income, including gaming win, food and beverage revenue, hotel rooms revenue and other income, and operating costs recognised in the period immediately preceding the commencement of the group's annual budget exercise. This budget has been adjusted, where necessary, to take into account current trading conditions. The forecast period thereafter has increased income by an average of 3.7% per annum and operating costs by 4.5% per annum (31 March 2025: increased income by an average of 4.3% per annum and operating costs by 4.5% per annum).

Notes to the financial statements continued

14 INVESTMENT IN SUBSIDIARIES continued

Significant estimate – key assumptions used for value in use calculations continued

Long-term growth rate

Cash flows beyond the first five-year period are extrapolated using estimated long-term growth rates in order to calculate the terminal recoverable amount. The growth rate estimation considers risks associated with the gaming, entertainment and hospitality industry in which the subsidiaries operate. The company considers a long-term growth rate of 4.0% appropriate, a reduction from 4.5% for the prior year. The reduction in the rate is mainly due to signs of inflation being brought under control.

Risk-adjusted discount rate

The discount rate is calculated using a weighted average cost of capital ("WACC") of the respective CGUs. WACC is calculated using a risk-free rate referenced to the 10-year point on the SA Government Bond curve and an equity premium adjusted for specific risks relating to the relevant CGUs (share beta and small stock premium). The pre-tax discount rates have decreased in comparison with the prior financial year due to a lower risk-free rate and a decreased weighted average cost of debt, both as a result of decreasing interest rates. The company believes the discount rate will return to more normal levels over the medium term, with the South African Reserve Bank announcing a number of interest rate cuts since September 2024, of which three were during the year under review totalling 75 basis points. The company's effort to further reduce its debt levels to achieve its medium-term target will continue.

Significant estimate – reversal/(impairment) of investment in subsidiaries

Taking into account the revised assumptions, there were no impairments deemed necessary in respect of the company's investments in its subsidiaries since the previous reporting date. Reversals/(impairments) for the current and prior year are shown below:

	2026 R'000	2025 R'000
Tsogo Sun Hotels, Gaming and Entertainment Proprietary Limited	2 085 345	(291 120)
Goldfields Casino and Entertainment Centre Proprietary Limited	–	(53 394)
Silverstar Casino Proprietary Limited	34 770	75 636
Other investments	–	12
	2 120 115	(268 866)

The impairment reversal in Tsogo Sun Hotels, Gaming and Entertainment Proprietary Limited is mainly due to improvements in values of its indirect interest holdings in Montecasino and Suncoast precincts because of lower capital maintenance spend and a decrease in the discount rate. The recoverable amount of Tsogo Sun Hotels, Gaming and Entertainment Proprietary Limited is estimated as R16.5 billion (2025: R14.4 billion).

The reversal of impairment in Silverstar Casino Proprietary Limited was mainly due to lower debt levels when compared to the prior year and a decrease in the discount rate.

The following pre-tax discount rates have been used for the value in use calculations of these three subsidiaries:

	Discount rate pre-tax	
	2026 %	2025 %
Tsogo Sun Hotels, Gaming and Entertainment Proprietary Limited	16.8	18.3
Silverstar Casino Proprietary Limited	17.7	19.2
Goldfields Casino and Entertainment Centre Proprietary Limited	n/a	20.3

Notes to the financial statements continued

14 INVESTMENT IN SUBSIDIARIES continued

Significant estimate – impact of possible changes in key assumptions

The company's impairment reviews are sensitive to changes in the key assumptions described above. Based on the company's sensitivity analysis, a reasonable possible change in a single assumption will not cause a material impairment loss in any of the company's investments in subsidiaries, as these subsidiaries have significant headroom available between the calculated values in use and the carrying amounts, other than the below subsidiaries. Refer also to note 3(b) *Critical accounting estimates and judgements – Estimated impairment of investment in subsidiaries*.

The following reflects the total impairment and impairment reversals that would be recognised if a reasonable possible change in a key assumption, on which the company has based its determination of the subsidiaries' recoverable amounts, would cause the carrying value of the company's investments in its subsidiaries to exceed the recoverable amounts:

	2026			2025		
	1pp decrease in trading assumptions ⁽¹⁾ R'000	1pp decrease in growth rate assumptions ⁽¹⁾ R'000	1pp increase in discount rate assumptions ⁽¹⁾ R'000	1pp decrease in trading assumptions ⁽¹⁾ R'000	1pp decrease in growth rate assumptions ⁽¹⁾ R'000	1pp increase in discount rate assumptions ⁽¹⁾ R'000
<i>Total reversal/(impairment) would be:</i>						
Tsogo Sun Hotels, Gaming and Entertainment Proprietary Limited	1 939 225	1 177 964	854 482	(435 910)	(1 054 935)	(1 344 917)
Tsogo Sun Alternative Gaming Investments Proprietary Limited	–	–	–	–	(139 795)	(219 930)
Silverstar Casino Proprietary Limited	20 612	(39 523)	(68 269)	60 737	4 689	(24 342)
Goldfields Casino and Entertainment Centre Proprietary Limited	n/a	n/a	n/a	(54 324)	(56 117)	(57 406)

⁽¹⁾ Refer to assumptions above

Investments in subsidiaries pledged as security

Investments in subsidiaries are pledged as security for the company borrowings and borrowings of the company's subsidiary, Tsogo Sun Treasury Proprietary Limited.

Treasury loan		
Tsogo Sun Treasury Proprietary Limited		
Non-current portion	3 017 057	4 006 553
Gross	3 050 000	4 050 000
Less: loss allowance	(32 943)	(43 447)
Current portion	825 478	939 012
	3 842 535	4 945 565

The loan to Tsogo Sun Treasury Proprietary Limited is an unsecured treasury loan, bearing interest by applying three-month Johannesburg Interbank Agreed Rate ("JIBAR") with an additional margin and is receivable quarterly. Refer to note 28 for detail in respect of interest rates. The maturity analysis is shown in the table below:

	2026 R'000	2025 R'000
Loan tranche maturing 28 February 2026	–	900 000
Loan tranche maturing 28 February 2027	800 000	1 000 000
Loan tranche maturing 31 May 2027	1 000 000	1 000 000
Loan tranche maturing 31 August 2027	900 000	900 000
Loan tranche maturing 31 May 2028	550 000	550 000
Loan tranche maturing 31 August 2028	200 000	200 000
Loan tranche maturing 31 August 2029	400 000	400 000
Capital loan tranches due	3 850 000	4 950 000
Interest receivable	25 478	39 012
Loss allowance	(32 943)	(43 447)
	3 842 535	4 945 565

Treasury deposit

Tsogo Sun Treasury Proprietary Limited		
Gross	–	54 800
Less: loss allowance	–	(477)
Current	–	54 323

The prior year treasury deposit with Tsogo Sun Treasury Proprietary Limited was unsecured, repayable on demand and incurred interest at market related rates similar to the rates the company borrowed at.

Current accounts

Gold Reef Management Proprietary Limited	1 003	1 109
	1 003	1 109

The current accounts are unsecured loans to subsidiaries, repayable on demand and are interest free.

Total loans to subsidiaries	3 843 538	5 000 997
Summarised as follows:		
Non-current	3 017 057	4 006 553
Current	826 481	994 444
Total loans to subsidiaries	3 843 538	5 000 997

Exposure to credit risk

Debt investments

Loan receivables are subject to the impairment provisions of IFRS 9, which requires a loss allowance to be recognised for all exposures to credit risk. ECLs are measured annually by independent appointed actuaries and consultants who hold recognised and relevant professional qualifications. The loss allowance for subsidiary loan receivables is calculated based on 12-month expected losses if the credit risk has not increased significantly since initial recognition. In cases where the credit risk has increased significantly since initial recognition, the loss allowance is calculated based on lifetime ECLs. The loss allowance is updated to either 12-month or lifetime ECLs at each reporting date based on changes in the credit risk since initial recognition. If a loan is considered to have a low credit risk at the reporting date, then it is assumed that the credit risk has not increased significantly since initial recognition. Alternatively, if a loan is in arrears more than 90 days, then it is assumed that there has been a significant increase in credit risk since initial recognition.

During the year under review and prior year, the loss allowance for subsidiary loan receivables is based on 12 month expected losses as the credit risk has not increased significantly since initial recognition.

Credit loss allowance

The movements in the ECL allowance on loans to subsidiaries, based on 12-month ECLs, are shown below:

	2026 R'000	2025 R'000
Loss allowance as at 1 April	43 924	50 426
Decrease in allowance recognised in profit or loss during the year	(10 981)	(6 502)
Loss allowance as at 31 March	32 943	43 924

The following tables set out the carrying amount, loss allowance and measurement basis of ECL for the loans to subsidiary company:

	Gross carrying amount at default R'000	Loss allowance R'000	Carrying amount (net of loss allowance) R'000
2026			
Tsogo Sun Treasury Proprietary Limited	3 875 478	(32 943)	3 842 535
	3 875 478	(32 943)	3 842 535
2025			
Tsogo Sun Treasury Proprietary Limited	5 043 812	(43 924)	4 999 888
	5 043 812	(43 924)	4 999 888

The maximum exposure to credit risk at the reporting date is the carrying value of the receivable shown above.

ECL methodology

Methodology considerations

The calculation of ECL for repayable on demand loans assumes that the loan is demanded at the reporting date. If the borrower has sufficient highly liquid assets to meet the loan repayment on demand, one could argue that the ECL is close to zero. If the borrowing company has insufficient liquid assets, the ECL assessment should consider likely amounts and timing of recoveries. The recoveries could come from repayments over time or a fire sale of assets.

The PD model was used to estimate the loans to subsidiaries ECL (the same model used for the guarantees – refer to note 20). The valuation approach uses a holistic view of the group, underlining the importance of operational continuity of the borrowers. It considers the strategic importance of the borrowing entity, as well as the importance of the borrower's support to related entities in the group.

Probability of Default (PD)

The entities were allocated to categories based on their strategical importance within the group. The PD for each group was based on an assumed S&P credit rating. The table below shows the categories, their assumed rating and 1-year PD.

Entity	Strategic category	S&P rating	PD
Holding company	0	BB-	0.9%
Core subsidiaries	1	B+	1.8%
Strategically important subsidiaries	2	B	2.6%
Non-strategic subsidiaries	3	B/B-	3.8%

Loss Given Default (LGD)

The LGD represents the portion of the loan that is ultimately not recoverable by the lender. Recoveries were estimated using two approaches:

- Wind-up basis: estimating recoveries from a fire sale value of the borrower's assets; and
- Continued operating basis: estimating recoveries from stressed operational cash flows in default scenario.

Exposure Period ("EP")

For Stage 1 loans (loans with no indication of non-performance), a one-year EP was used. For other loans, future expected cash flows relative to the outstanding amount was used. The EP is the ratio of the borrower's outstanding balance over the borrower's estimated 2026 financial year's cash flow, with a minimum of one year and a maximum of ten years.

Intercompany ECL formula

Each entity's intercompany ECL was calculated as: $ECL = Obal \times PD \times LGD \times EP$.

Based on the above, the assumptions used for the loans were as follows for both current and prior years:

PD	0.9%
LGD	100%
EP (2026 and 2025: 12 months)	1.00

Loans to subsidiary company pledged as security

Loans to the subsidiary companies are pledged as security for the company borrowings and borrowings of the company's subsidiary, Tsogo Sun Treasury Proprietary Limited.

Notes to the financial statements continued

16 CASH AND CASH EQUIVALENTS	2026 R'000	2025 R'000
Financial assets measured at amortised cost		
Current accounts	283	7 271
Call deposit accounts	268	137
Cash and cash equivalents per the statement of cash flows	551	7 408

Due to the short-term nature of these assets and historical experience, cash and cash equivalents are regarded as having a low PD and therefore the related ECL is deemed not significant.

Cash and cash equivalents pledged as security

Cash and cash equivalents are pledged as security for the company borrowings and borrowings of the company's subsidiary, Tsogo Sun Treasury Proprietary Limited.

17 ASSETS CLASSIFIED AS HELD FOR SALE

Assets classified as held for sale comprise the investment in Goldfields Casino and Entertainment Centre Proprietary Limited, a subsidiary of the company.

During the year under review, the board of directors committed to a plan to dispose of the company's interest in Goldfields Casino and Entertainment Centre Proprietary Limited. As at 31 March 2026, the disposal met the criteria for classification as held for sale in accordance with IFRS 5 *Non-current Assets Held for Sale and Discontinued Operations*. The sale transaction was still in progress at year end.

18 SHARE CAPITAL AND PREMIUM

	Number of ordinary shares	Treasury shares	Net number of shares	Ordinary share capital R '000	Share premium R '000	Treasury shares R '000	Total R '000
At 1 April 2024	1 042 596 816	(3 650 485)	1 038 946 331	20 919	17 430 816	(94 000)	17 357 735
Treasury shares settled	–	776 699	776 699	–	–	39 789	39 789
At 31 March 2025	1 042 596 816	(2 873 786)	1 039 723 030	20 919	17 430 816	(54 211)	17 397 524
Share buy-back ⁽¹⁾	(62 309 214)	–	(62 309 214)	(1 246)	(437 064)	–	(438 310)
At 31 March 2026	980 287 602	(2 873 786)	977 413 816	19 673	16 993 752	(54 211)	16 959 214

⁽¹⁾ Repurchased 62 309 214 shares at an average price of R7.00 per share

The total number of authorised ordinary shares is 1 200 000 000 (2025: 1 200 000 000) with a par value of 2 cents per share (2025: 2 cents per share). The company also has 20 000 000 authorised unissued preference shares of no par value. All issued shares are fully paid up. During the year under review, the company commenced with a share buy-back programme and all repurchased shares have been cancelled and delisted. Treasury shares consists of the group's IFRS 2 *Share-based Payment* equity-settled scheme and these shares are still to be settled in full by the participants, as noted below.

The directors of the company have, as a general authority until the forthcoming AGM, been authorised to allot and issue authorised but unissued ordinary shares as they in their discretion deem fit (subject to the company's MoI, the Companies Act and the JSE Limited Listings Requirements). This authority does not extend to the issue of shares for cash (whether by way of a general issue of shares for cash or a specific issue for cash) where the JSE Limited Listings Requirements or the Companies Act require an additional approval to be granted. The board of directors has also been given a general authority to acquire ordinary shares issued by the company subject to the MoI, Companies Act and JSE Limited Listings Requirements which is valid until the company's next AGM, or 15 months from the date of the passing of the special resolution authorising same, whichever period is the shorter. The board of directors has been authorised to determine the preferential rights attaching to the future issue of preference shares (subject to the approval of the JSE).

Executive facility (historical discontinued facility) (treasury shares)

The scheme has been discontinued with no new allocations/facilities permitted in future. The scheme has no participants left who are employed by any company within the group, and only two participants remain. The 2.9 million ordinary shares held by the two remaining participants are classified as treasury shares in terms of IFRS 2 *Share-based Payments*. During the prior year, 776 699 shares were sold and the respective loan settled by that reporting date. The remaining shares are pledged to the company (with effect from 14 March 2019) as security until the loans in respect of the facilities relating thereto are repaid. Dividends on these remaining shares have been ceded to the company.

Notes to the financial statements continued

19 INTEREST-BEARING BORROWINGS

	2026 R'000	2025 R'000
Financial liabilities measured at amortised cost		
Corporate bonds (Domestic Medium-term Note Programme)	3 875 478	4 988 765
	3 875 478	4 988 765
Non-current liabilities	3 050 000	4 050 000
Current liabilities	825 478	938 765
	3 875 478	4 988 765

At the end of March 2026, R1.1 billion relating to the note from the Domestic Medium-term Note Programme was repaid. The bonds have tenors of up to four years. Refer to notes 28 and 29 for further details on borrowings and covenants.

Securities

The following represents the carrying amounts of assets of the company, together with its subsidiaries, that are pledged as security in respect of the borrowings of the company and bank borrowings in its treasury subsidiary, Tsogo Sun Treasury Proprietary Limited:

Property, plant and equipment	5 031 161	5 107 289
Investment properties	244 000	242 000
Other claims and receivables	144 076	116 001
Pledge of cash in bank accounts	258 953	223 186
Investment in subsidiaries and associates	26 163 881	26 163 146
Intergroup loan receivables	23 749 047	25 470 215
	55 591 118	57 321 837

Mortgage bonds are registered over six immovable properties of certain subsidiaries.

Committed facilities

The banking facilities at year end amounted to R20 million (2025: R20 million) and the amount utilised is Rnil (2025: Rnil).

Fair values and interest rates

The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the company for similar financial instruments and is within level 3 of the fair value hierarchy. The fair values of long and medium-term borrowings are based on cash flows discounted using commensurate variable rates chargeable by lenders of the above loans ranging between 7.90% and 8.20% (2025: 8.66% and 9.07%). All borrowings bear interest at floating rates (refer to note 28.1(a)(ii)).

The carrying amounts and fair values of borrowings are as follows:

	Carrying amount		Fair value	
	2026 R'000	2025 R'000	2026 R'000	2025 R'000
Corporate bonds (Domestic Medium-term Note Programme)	3 875 478	4 988 765	3 849 484	4 995 088
	3 875 478	4 988 765	3 849 484	4 995 088

Notes to the financial statements continued

20 FINANCIAL GUARANTEES

	2026 R'000	2025 R'000
At 1 April	3 390	17 053
Gain on derecognition of financial guarantee liability	–	(16 782)
Gain on remeasurement of financial guarantee liability	(2 948)	(565)
Recognition of financial guarantee liability	–	3 684
At 31 March	442	3 390

The company has recognised a financial guarantee liability due to the fact that the company (together with other subsidiaries) provided guarantees for debt securities issued by Tsogo Sun Treasury Proprietary Limited (subsidiary). The company's maximum exposure to credit risk amounts to the total outstanding balances on the company's and Tsogo Sun Treasury Proprietary Limited's debt securities of R6.6 billion (2025: R7.3 billion). The measurement of financial guarantees is carried out annually by independent appointed actuaries and consultants who hold recognised and relevant professional qualifications.

Expected credit loss (ECL) model for financial guarantees

The allowance account for credit losses is determined with reference to the following:

- Stage 1: 12-month ECLs for those financial guarantees where there has not been a significant increase in credit risk since initial recognition;
- Stage 2: lifetime ECLs for those financial guarantees where there has been a significant increase in credit risk on a collective basis; and
- Stage 3: lifetime ECLs for all credit impaired financial guarantees.

GCR rating upgrades and improving financial metrics over recent years support the classification of all loans as Stage 1. Management has applied the below mentioned assumptions, judgements and estimates in developing the model.

Guarantee exposure/Exposure at Default (EAD)

The loan amounts (outstanding balances) plus any accrued interest at default were used as the EAD for the loans. For facilities that were not fully drawn down at year end, an estimation of the potential level of utilisation, over the period of the facility/guarantee date, was used. It is assumed that the nominal amount remains drawn until redemption of the note and full repayment of the facility at the contractual maturity date unless earlier settlement is anticipated. The respective quoted ZAR swap curves were obtained from an independent source at the inception date of the guarantees and at the reporting date for the purposes of the ECL calculations.

Credit spreads

Historical through-the-cycle ("TTC") corporate default rates for companies with a BB- rating from S&P's Annual Global Corporate Default and Rating Transition Study were used to estimate PD. The ratings issued by GCR Ratings were used as a base and adjusted to an international scale rating as used in the S&P study. Management forecasts were done to determine what forward-looking adjustment would be required. An average TTC recovery rate of 80 – 95% (2025: 80%) was assumed (i.e. an LGD of 12.5% (2025: 20%)) based on past industry recovery experience and collateral analysis. Forward-looking factors were considered before finalising PDs and LGDs.

Loss Given Default (LGD)/Recovery rate

An LGD of 12.5% for notes and 20% for loans (2025: 20% and 30% respectively) (equivalent to a recovery rate of 87.5% and 80% respectively (2025: 80% and 70%)) was assumed in the valuation model. This was determined based on factors including the value and liquidity of the underlying assets of the entities, GCR modelled recoveries in default scenarios, and the historical recovery rates of defaulted companies in the gaming, entertainment and hospitality industry.

The total ECL and fair values are allocated to each guarantor on a proportional basis using adjusted EBITDA as the apportionment metric. Adjusted EBITDA provides an objective measure of each entity's operational cash-generating capacity and is reported in financial statements. This includes a straightforward proportional allocation based on the adjusted EBITDA of the guarantors.

Notes to the financial statements continued

21 TRADE AND OTHER PAYABLES	2026 R'000	2025 R'000
<i>Financial instruments</i>		
Other payables	17	200
<i>Non-financial instruments</i>		
Value added tax payable	124	136
	141	336

The carrying amounts of the company's trade and other payables are assumed to approximate their fair values due to the short-term nature of trade and other payables.

22 LOANS FROM SUBSIDIARIES	2026 R'000	2025 R'000
Tsogo Sun Hotels, Gaming and Entertainment Proprietary Limited	6 902 508	6 902 508

28 FINANCIAL RISK MANAGEMENT

28.1 Financial risk factors

The company's activities expose it to a variety of financial risks: market risk (including currency risk, interest rate risk and other price risk), credit risk and liquidity risk. The company's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the company.

Risk management process

The board of directors recognises that the management of business risk is crucial to the company's continued growth and success and this can only be achieved if all three elements of risk – namely threat, uncertainty and opportunity – are recognised and managed in an integrated fashion. The audit and risk committee is mandated by the board of directors to establish, coordinate and drive the risk management process. It has overseen the establishment of a comprehensive risk management system to identify and manage significant risks in the business. Internal financial and other controls ensure a focus on critical risk areas, are closely monitored and are subject to management oversight and internal audit reviews.

The systems of internal control are designed to manage rather than eliminate risk, and provide reasonable, but not absolute, assurance as to the integrity and reliability of the financial statements, the compliance with statutory laws and regulations and to safeguard and maintain accountability of the company's assets. The board of directors and management acknowledge that an integrated approach to the total process of assurance improves the assurance coverage and quality, in addition to being more cost effective.

In addition to the risk management processes embedded within the company, management identifies, quantifies and evaluates the company's risks annually, utilising risk assessments. The severity of risks is measured in qualitative (e.g. zero tolerance for regulatory risks) as well as quantitative terms, guided by the risk tolerance and risk appetite measures of the board of directors. The scope of the risk assessment includes risks that impact shareholder value or that may lead to a significant loss or loss of opportunity. Appropriate risk responses to each individual risk are designed, implemented and monitored.

The risk profiles, with the risk responses, are reviewed by the audit and risk committee at least three times a year. This methodology ensures that identified risks and opportunities are prioritised according to the potential impact on the company and cost-effective responses are designed and implemented to counter the effects of risks and take advantage of opportunities.

Financial risk management is carried out by a central treasury department ("Group Treasury") under policies approved by the board of directors. Group Treasury identifies, evaluates and hedges financial risks in close cooperation with the company. The board of directors provides principles for overall risk management, as well as written policies covering specific areas, such as foreign exchange risk, interest rate risk, use of derivative financial instruments and non-derivative financial instruments and investing excess liquidity. Credit risk is managed at an entity level for trade receivables.

Notes to the financial statements continued

28 FINANCIAL RISK MANAGEMENT continued

28.1 Financial risk factors continued

(a) Market risk

The risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk

(i) Currency risk

The risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates

The company is not exposed to significant foreign exchange risk and therefore no further information has been presented.

(ii) Interest rate risk

The risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates

The company's primary interest rate risk arises from loans from long-term borrowings. Borrowings at variable rates expose the company to cash flow interest rate risk. Borrowings at fixed rates expose the company to fair value interest rate risk. The company's policy is to borrow in floating rates, having due regard that floating rates are generally lower than fixed rates in the medium term.

At 31 March the interest rate profile of the company's interest-bearing financial instruments is shown below. There were no fixed rate instruments.

	2026 R'000	2025 R'000
Financial assets	3 843 086	5 007 296
Financial liabilities	(4 088 436)	(4 988 765)
	(245 350)	18 531

Cash flow sensitivity analysis for variable rate instruments

A change of 100 basis points in interest rates would have increased/decreased pre-tax profit or loss by R2 million (2025: R0.2 million). This analysis assumes that all other variables remain constant. The analysis was performed on the same basis for 2025.

On 3 December 2025, the South African Reserve Bank announced that JIBAR will be permanently discontinued with its final publication on 31 December 2026. All JIBAR tenors will cease to be provided and will be considered non-representative from that date. JIBAR will be replaced by the South African Rand Overnight Index Average ("ZARONIA"), a backward-looking, risk-free overnight rate.

In line with market-wide reform, all financial instruments currently referencing JIBAR are expected to transition to ZARONIA. The transition will result in a change from a forward-looking term rate to a compounded overnight rate methodology, whereby interest is calculated daily and compounded over the relevant interest period.

To preserve the economic equivalence of financial instruments at the date of transition, a Credit Adjustment Spread ("CAS") will be applied to ZARONIA. The CAS is intended to align the new rate with the previous JIBAR-based pricing and minimise value transfer between counterparties at the transition date.

In addition, a "no new JIBAR" convention became effective from 31 March 2026, prohibiting the origination of new financial contracts referencing JIBAR, other than under limited regulatory exemptions. Accordingly, any new or refinanced debt facilities entered into by the company will be based on ZARONIA or include appropriate fallback provisions.

(iii) Other price risk

The risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from currency risk or interest rate risk), whether those changes are caused by factors specific to the individual financial instruments or its issuer, or factors affecting all similar financial instruments traded in the market

The company has no pricing risk.

Notes to the financial statements continued

28 FINANCIAL RISK MANAGEMENT continued

28.1 Financial risk factors continued

(b) Credit risk

The risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation

Credit risk arises from cash and cash equivalents, deposits with financial institutions, as well as credit exposures in respect of loans to group companies, financial guarantees, the company's customer base and other receivables.

For financial institutions, only audit and risk committee approved parties are accepted (on behalf of the board of directors). The company has policies that limit the amount of credit exposure to any financial institution. The company limits its exposure to financial institutions by setting credit limits based on their credit ratings and generally only with reputable financial institutions with strong credit ratings. The utilisation of credit limits is regularly monitored. The credit quality ratings of financial institutions that the company deposits funds with is at least Ba2. Refer to note 20 *Financial guarantees* for the maximum exposure to credit risk in respect of financial guarantees.

Refer to note 15 for further credit risk analysis in respect of loans to subsidiaries. The company has no significant credit risk in respect of trade and other receivables.

(c) Liquidity risk

The risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of funding through an adequate amount of committed credit facilities and the ability to close out market positions. Due to the dynamic nature of the underlying businesses, Group Treasury aims to maintain flexibility in funding by keeping committed credit lines available. Although current liabilities exceed current assets at 31 March 2026, the company's forecasts reflect that it will generate sufficient cash flows during the period to meet all trading liability obligations. Refer to note 3(a) *Critical accounting estimates and judgements – Going concern* for details.

Management monitors rolling forecasts of the company's liquidity headroom on the basis of expected cash flow and the resultant borrowing position compared to available credit facilities. This process is performed during each financial year for five years into the future in terms of the company's long-term planning process.

The company sources its funding from a syndicate of large South African banks and institutions thereby reducing liquidity concentration risk. The facilities comprise a mix of short, medium and long-term tenure, with utilised facilities as shown in the table below:

	2026 facility			2025 facility		
	Total R'000	Available R'000	Utilisation R'000	Total R'000	Available R'000	Utilisation R'000

29 CAPITAL RISK MANAGEMENT

The company's objectives when managing capital are to safeguard the company's ability to continue as a going concern and provide optimal returns for shareholders through maintaining an optimal capital structure.

The company defines capital as equity funding provided by shareholders and debt funding from external parties. Shareholder funding comprises permanent paid-up capital, share premium and revenue reserves as disclosed in the statement of financial position. Debt funding comprises loans from corporate bonds, treasury loans from subsidiaries and net debt represents gross debt net of all cash reserves.

The policy of the board of directors is to maintain a strong capital base so as to maintain investor and creditor confidence and to sustain future development of the business. The board of directors monitors the cost of capital, which the company defines as the WACC, taking into account the company's internally calculated cost of equity (shareholder funding) and long-term cost of debt assumptions. In order to maintain or adjust the capital structure, in the absence of significant investment opportunities, the company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or acquire own shares.

The board of directors seeks to maintain a balance of the higher returns that might be possible with optimal levels of net interest-bearing debt and unutilised headroom and the advantages and security afforded by a sound equity position. The company's debt capacity and optimal gearing levels are determined by the cash flow profile of the company. The company's current utilisation of debt facilities is shown in notes 19 *Interest-bearing borrowings* and 28 *Financial risk management*.

The covenants are measured as a group (the company, together with its subsidiaries) and are monitored and reported to the board of directors on a quarterly basis. No debt covenants in respect of external borrowings were breached during the year under review. Apart from the external debt borrowing covenants, the company is not subject to externally imposed capital requirements. Refer to note 3(a) *Going concern* for further details on debt covenants.

30 EVENTS AFTER THE REPORTING DATE

The directors are not aware of any matters or circumstances arising since the end of the reporting period, not otherwise dealt with within these financial statements that would affect the operations or results of the company significantly, other than as mentioned below.

Dividend declaration

Subsequent to the company's reporting date, on 25 May 2026, the board of directors declared a final gross cash dividend of 30.0 cents per share in respect of the year ended 31 March 2026 from distributable reserves. The aggregate amount of the dividend paid on 27 July 2026, not recognised as a liability at the reporting date, is R291 million.

Share buy-backs

In October 2025, the company commenced with a share buy-back programme, and acquired 62 million shares to the value of R438 million as at 31 March 2026. In May 2026, the company acquired a further 10 million shares to the value of R67 million. All repurchased shares have been cancelled and delisted and the total number of shares in issue at the date of this report is 970 million shares.
